## **Interconnection Account Report FY 2013 (For the Year Ended March 31, 2014)**

Pursuant to Rules for Category I Designated Telecommunications Facilities Interconnection Accounting, Nippon Telegraph and Telephone East Corporation (NTT-East) has today submitted the Interconnection Accounting Report FY 2013 to the Minister for Internal Affairs and Communications.

An outline of the profit and loss statement included in the report is provided in the attachment.

An announcement is also made regarding profit and loss, adjusted to reflect the impact of the special loss on disposal of PCB (polychlorinated biphenyl) waste (provision of reserve for environmental measures).

\*The report is also publicly disclosed on the NTT East Web site. (Available only in Japanese.)

### [Outline of Rules for Category I Designated Telecommunications Facilities Interconnection Accounting]

#### Purpose

The purpose of these Accounting Regulations is to specify the accounting methods used for interconnection to Category I designated telecommunications facilities and to clarify revenues and expenses, etc., concerning this interconnection, thereby contributing to the calculation of appropriate interconnection charges.

\*With respect to the expenses of telecommunications facilities that are attributed to the Category I Designated Facilities Management Business, data are totaled and classified per equipment category unit, such as switches and transmission lines, in order to provide a basis for calculating interconnection charges for each unbundled element.

#### Regulations

The accounting procedures adopted by telecommunications carriers that install Category I designated telecommunications facilities are separated into the business to manage and operate Category I designated telecommunications facilities (Category I Designated Facilities Management Business) and the business to use such facilities to provide service to users (Category I Designated Facilities Usage Business), and the Category I Designated Facilities Management Business provides these facilities to the Category I Designated Facilities Usage Business and other carriers on equal conditions.

#### Statements Included

Form	Statement	Description
1	Profit and Loss Statement	Profit (loss) of the Category I Designated Facilities Management Business and Category I Designated Facilities Usage Business
2	Statement of Mean Capital Employed and Rate of Return	Mean capital employed (rate base) by the Category I Designated Facilities Management Business and Category I Designated Facilities Usage Business, and the rate of return on that employed by the Management Business (pre-tax basis)
3	Detailed Statement of Fixed Asset Attribution	Breakdown of fixed assets attributed to the Category I Designated Facilities Management Business and the Category I Designated Facilities Usage Business *3-2 sets forth the breakdown of general category I designated facilities. *Optical Subscriber Lines and Optical Main Distribution Frames are listed by prefecture.
4	Detailed Statement of Expenses by Equipment Category	Breakdown of expenses by equipment category for the Category I Designated Facilities Management Business and the Category I Designated Facilities Usage Business *4-2 sets forth the breakdown of general category I designated facilities. *Optical Subscriber Lines and Optical Main Distribution Frames are listed by prefecture.
