

<Exhibit 9>

"Open Networks "

· Interface and other interconnection conditions for commencement of NGN services are listed below.

· Interface requirements (UNI) for using optical broadband service and Hikari Denwa service

| Services | Interface Requirements |
|-----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| FLET'S Hikari Next (Exhibit 1) | As shown in the technical reference materials found at: http://flets.com/next/s_tech.html |
| Hikari Denwa / Hikari Denwa Office Type (Exhibit 2) | As shown in the technical reference materials found at: http://www.ntt-east.co.jp/ngn/business/ |

· Interface requirements (UNI) for using corporate services

| Services | Interface Requirements |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Business Ethernet Wide (Exhibit 4) | As shown in the technical reference materials found at: http://www.ntt-east.co.jp/ether/refer/ |
| FLET'S · VPN Gate (Exhibit 5) | As shown in the technical reference materials found at: http://flets.com/next/s_tech.html |

· Interface requirements (SNI) for using contents provider services

| Services | Interface Requirements |
|---------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| FLET'S Cast (Unicast / Multicast) (Exhibit 6) | As shown in the technical reference materials found at: http://flets.com/next/s_tech.html |
| Services for digital terrestrial television IP retransmission (Exhibit 7) | For any inquiries, please contact us using the following form found at: https://flets.com/inquiry/ipcast/form.html |

*** The updated technical reference materials will be expected to be made available as the above services commence on March 31, 2008.**

· Interface requirements (NNI) for using telecommunications company services

| Function | Interface Requirements | Connection Fees |
|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Interactive communications | As shown in the technical reference materials found at: http://www.ntt-east.co.jp/info-st/mutial/ngn/index.html | <ul style="list-style-type: none"> • There is no connection charge. • However, charges apply for equipment required for NGN connection. |
| LAN communications (Ethernet communications) | | |
| ISP connection | As shown in the technical reference materials found at: http://www.ntt-east.co.jp/info-st/constip/cons1/index.html (We provide 1G and 10G interface ISP connectivity functions.) | <ul style="list-style-type: none"> • Same connection fees as for current regional IP networks. • However, we have provisionally reduced some of the charges for equipment required for NGN connection. *9-1 |
| IGS connection *9-2 | As shown in the technical reference materials found at: http://www.ntt-east.co.jp/info-st/constip/cons1/index.html (Same as current Hikari Denwa network interface requirements.) | Same as current Hikari Denwa network connection fees. |

***9-1 The charge reductions are as follows:**

Eligible businesses: ISPs currently connected to a regional IP network that, as a general rule, had applied for NGN connection by the time the POI building launched.

Amount of reduction: For each ISP and for each POI building, charges on IF packages for the minimum connection equipment required for NGN connection.

Period of reduction: The first three years of service.

***9-2 Businesses already connected to existing Hikari Denwa do not need to apply for connection to Hikari Denwa using NGN.**

*** Please contact us directly regarding connections other than the above. e above services commence on March 31, 2008.**

(Reference) NGN Connection Interfaces servers, etc.
