

7-②. 1 Gbps Service for Consumers

- During the six-month period ending September 30, 2014, we plan to launch a 1 Gbps access service for consumers. This will enable consumers to enjoy the use of Wi-Fi terminals, which have become increasingly popular, in the comfort of their homes, with wireless LAN equipment that conforms to the latest standard (IEEE 802.11ac).

	1 Gbps Access Service for Consumers
