

# "FLET'S Hikari Next"

## 1. Outline of Services

- Using subscriber optical fiber, connects to a subscriber's Internet service provider ("ISP") through NTT East's NGN; in addition, it provides high-quality telephony services, wide-area videophone services (with SD-equivalent quality: regular TV standard), video distribution in collaboration with content providers, IP retransmission of digital terrestrial television and other services.
- The service will come in two types: "FLET'S Hikari Next Family Type" for single-dwelling unit and "FLET'S Hikari Next Mansion Type" for multi-dwelling unit.
- A service where subscriber optical fiber segments will be shared by multiple customers with connection speeds of up to 100Mbps \*1-1.

\*1-1: "Up to 1Gbps" and "up to 100Mbps" indicate the maximum speeds based on technical standards. Actual speed may be slower depending on a subscriber's network environment and line traffic.
